AJACUIE EXCELLENCE

Even in a community renowned for its public education, Corpus Christi excels. Our students consistently earn impressive scores on national academic tests such as the Iowa Assessments. In addition to preparing students for the challenge of high school and college, our high academic standards promote strong organizational and study skills.

Graduates are well-prepared for extraordinary achievement in high school. Our alumni have gone onto successful high school careers where they have been National Merit Finalists, valedictorians, salutatorians, and members of the National Honor Society. All have a strong foundation of faith, discipline, and academics to ensure long-term success.

Fundamental to Corpus Christi’s academic quality are the exceptional teachers and administrators, who challenge students to reach their full potential each day. Our teachers are Colorado certified educators, many with advanced degrees. They are worthy role models—steadfast in their commitment to students and to Catholic Education.
